

FOCALE-Z _ Technical Sheet

Availability: 2025

The project can take place in any space, indoors (stage, room, hall, exhibition space).

Duration: variable [30' > 40']

Requirements:

- A screen or a light-colored wall for projection (minimum 4m x 3m)
- 1 powerful video projector (4000 lumen minimum, on floor) + HDMI cable (15m)
- 1 table with a chair, for two laptops
- 1 power strip (6 sockets) with extension cord
- Stereo sound system, adapted to the space
- 6 cut lights, on stand or on floor, controlled via DMX (personal computer)
- wooden floor, or dance floor
- 1 small tripod
- Gaffer tape

The company provides all the necessary computer and video equipment (laptops, Kinect camera, cables, accessories) for the performance.
