

## **TECH SHEET “ENTRE”PROJECT**

\* a suitable performance space, either an outdoor area with clearly defined boundaries and dimensions appropriate for the expected audience, or an indoor venue large enough to accommodate the audience; in both cases, the floor should be flat and smooth;

\* a stereo sound system adapted to the size of the venue;

\* one table, one chair, and a 220V power extension to supply our laptop computer;

\* a standard 4G mobile network connection (essential for sending participation prompts to the audience's smartphones through our dedicated network);

\* a dressing room where the dancers can store costumes, rest, and prepare.
